Rubicon (2009)
for ryuuteki, hichiriki, and shou

Notes to performers

Tempo markings are suggestions only - the tempo is elastic.
Accidentals carry through the bar.

Please use traditional gagaku playing style and technique. It's ok to add ornaments, and you should use your own judgement as to how a note is repeated – for example, ateru or tatau.

In the fluttersong phrases in bars 96-102, the ryuuteki should sound like a quiet night insect.
