Song Acts

Twelve Songs to Texts from Ezra Pound

For Mezzo Soprano, Baritone, and Piano

Book I: Angels of Wind and Fire

2008, 2018

Lawrence Kramer

Song Acts is a hybrid work, half a choreographed song cycle and half a musical drama enacted in twelve songs. The "libretto" is drawn from the early poetry of Ezra Pound; the work seeks to compress the impassioned action typical of opera into a series of simple movements and gestures without an explicit narrative, much as the poems seek to compress historical experience into a sequence of free-floating images.

Writing in the early twentieth century, Pound took up the traditional topics of love and war to articulate but also to counter the feeling, widespread at the time, that modernity had caused experience to lose its depth and become merely a series of shocks and impressions. As Walter Benjamin put it, life felt as if human beings had fallen off the calendar. The result on the one hand was a loss of the sense of the numinous that had once touched everyday life and, on the other, the collective folly that allowed the catastrophe of the First World War. These issues are with us still, in new and perhaps even more dangerous forms, so these old modernist poems remain all too timely.

"Songs Acts" resists synopsis because of its prismatic approach to narrative. The basic action involves the vicissitudes of meeting and parting, separation and reunion, intimacy and distance, between romantic partners. The fate of the couple, however, becomes significant less in its own right than as an embodiment of the possibility of authentic human bonds in an era that is at best indifferent to them and at worst brutally hostile.

Song Acts consists of two books, which may be performed either as independent cycles or in sequence to form the full cycle. Book I, *Angels of Wind and Fire* (six songs, seventeen minutes) turns on the vicissitudes of desire, separation, and reunion. Book II, *Erat Hora* (six songs, twenty-one minutes) dwells on the question of how, in the words of W. H. Auden, to "show an affirming flame" amid dark memories and darker events. The title songs may also be performed independently.

All the texts are in the public domain. Some have been freely modified. The pronouns "he" and "she" may be switched freely throughout.

1. “The dew is upon the leaf. The night about us is restless.”

2. Alba

As cool as the pale wet leaves of lily-of-the-valley
She / He lay beside me in the dawn.

3. Song of Separation

Blue mountains to the north of the walls,
White river winding about them;
Here we must make separation
And go out through a thousand miles of dead grass.

Mind like a floating wide cloud.
Sunset like the parting of old acquaintances
Who bow over their clasped hands at a distance.
Our horses neigh to each other as we are departing.

4. “The night about us is restless. The dew is upon the leaf.”

5. Separation on the River Kiang.

Ko-jin goes west from Ko-kaku-ro,
The smoke-flowers are blurred over the river.
The lone sail blots the far sky.
And now I see only the river,
The long Kiang, reaching heaven.

6. Angels of Wind and Fire.

The angel of prayer according to the Talmud stands unmoved among the angels of wind and fire, who die as their one song is finished, also as he gathers the prayers they turn to flowers in his hands.

And if I, watching. . .
Make of these prayers of earth ever new flowers,
Marvel and wonder!
Marvel and wonder even as I,
Giving to prayer new language
And causing the works to speak

Of the earth-horde's age-lasting longing,
Even as I marvel and wonder, and know not,
Yet keep my watch in the ash wood
Among angels of wind and fire.

No. 1 is a line from Pound's "Coitus"; no. 4 reverses its clauses. The original title of no. 3 is "Taking Leave of a Friend." No. 6 is a modified version of the epigraph and conclusion of "Sandalphon" (the title refers to the Talmudic angel of prayer).
