

Ex Nihilo

Kris Peysen

Program Notes

Ex Nihilo is a Latin phrase meaning “out of nothing” or “from nothing.” Its most common use occurs in theology with the phrase *creatio ex nihilo*, which means “creation from nothing.”

In classical philosophy, *ex nihilo* also appears in the phrase *ex nihilo nihil fit*, which means “out of nothing comes nothing.”

In mathematics, a solution to a problem can be called *ex nihilo* if it appears without a working.

In military organization, a unit is *ex nihilo* if it forms without significant members of other units.

In computer programming, a created object is called *ex nihilo* if it does not use another object as its prototype.

My piece explores all these meanings.

Structurally, the piece is in a rough arch form, with the center section acting as a sort of fulcrum upon which the piece undergoes several transformations. Harmonically, the piece is a mixture of octatonic, chromatic, and diatonic elements, all freely juxtaposed with one another. Another notable element of the piece is the use of polymeter, which occurs in multiple episodes throughout, achieving its highest complexity in the climax.

This piece explores the creation and evolution of musical materials and everything that can happen in between. In those spaces lie vast potential.

Performance Notes

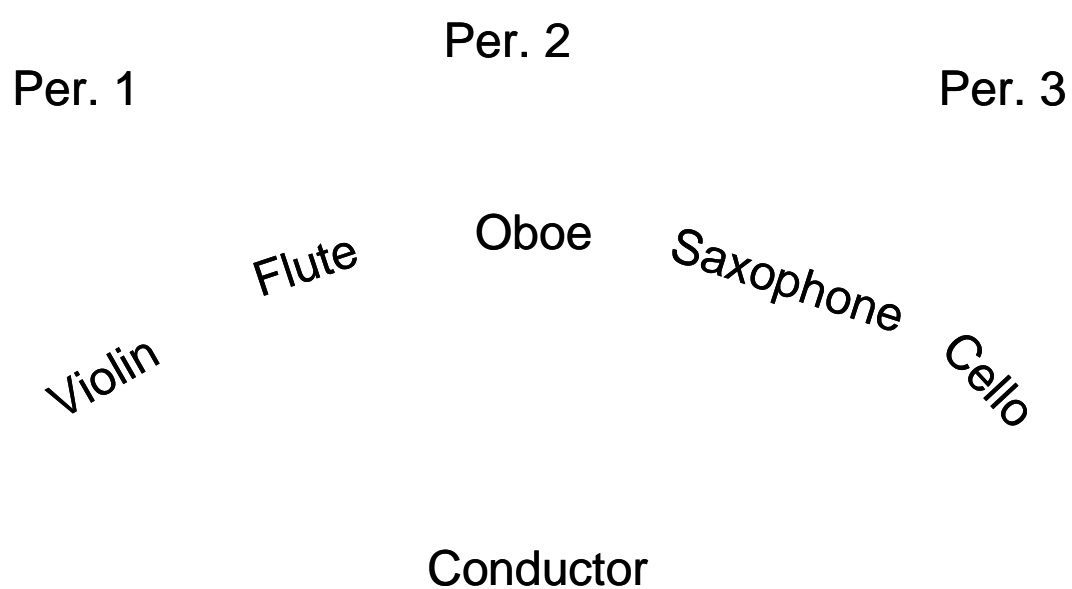

Duration: 15'00"

Instrumentation

Flute/Piccolo
Oboe
Tenor Saxophone in Bb*
Violin
Cello
Percussionist 1
Percussionist 2
Percussionist 3

*The saxophone player is required to perform both classical and jazz style during the piece, as notated in the score. The terms I am using here refer mainly to the type of sound produced by the instrument, and not to any further method of playing or "interpretation" of the music—i.e. rhythms in the jazz section should be played as written and not be "swung" in any fashion. In order to clarify what sounds I want, the classical sound should be darker, mellower, and with less vibrato; while the jazz sound should be brighter, more "growly," raucous, and use a heavier amount of vibrato. Time has been allotted to change mouthpieces if the player so desires.

Stage Layout

Notational Clarifications

Feathered Beams  mean to repeat the given note or pattern, starting at the initial note value (in this case an eighth note) and accelerate to the speed of an unmeasured tremolo. The beat remains constant.

 always means unmeasured tremolo.

n = niente

String glissandi begin immediately on the note they are attached to.

Accidentals behave traditionally, applying throughout the measure.

Percussion Instrumentation

Player 1

Chimes (Chm)
 *Glockenspiel (Glsp)
 Xylophone (Xyl)
 Triangle (Trgl)
 *4 Small Gongs (S.G.)
 Medium Tam-tam (M. Tam)
 Cymbals (Cymb)
 Temple Blocks (T. Bl.)

Player 2

*Glockenspiel (Glsp)
 Triangle (Trgl)
 Cowbell (Cowb)
 *4 Small Gongs (S.G.)
 Thunder Sheet (Th. S.)
 *Large Tam-tam (L. Tam)
 Cymbals (Cymb)
 Claves (Clv)
 5 Wood Blocks (W. Bl.)
 2 Log Drums (L. Dr.)

Player 3

Mark Tree (M. Tr.)
 Small Tam-tam (S. Tam)
 *Large Tam-tam (L. Tam)
 Crash Cymbals (Cr. Cymb)
 Snare Drum (S. Dr.)
 4 Tom-toms (T-t)
 Bass Drum (Bs. Dr.)

*Denotes an instrument that may be shared with another player, if necessary.

Unpitched Percussion Staff Layout

Player 1

Player 2

*always in closed position unless otherwise specified

Player 3

Pictures of a working percussion setup can be provided upon request.
